

## **JACOB MEERA MEMORIAL HIGH SCHOOL**

### **Play Group, Nursery and Kindergarten**

JMMHS understands that these initial years of schooling are of prime importance. A child's education begins with the playgroup, and they go on to Nursery, LKG and UKG stages through a challenging and innovative curriculum.

The formative years of a child are the best years of discovering his potential and setting the foundation of his future course. Kindergarten is your child's first step into formal education.

We have designed our Kindergarten infrastructure to enhance students' creativity and the ability to explore through opportunities in learning & sports. The kindergarten combines together a separate activity area with split-level sand pit, garden and a great collection of videos. The classrooms are equipped with toy shelves and racks with useful and activity-based toys and games.

Above all, the sense of security and comfort make the days at Kindergarten a fun-filled learning experience for the kids.
